THE RECYCLED PRODUCTS COMPANY

TrackMat™

Protect Your Track From Cleats and Vehicles

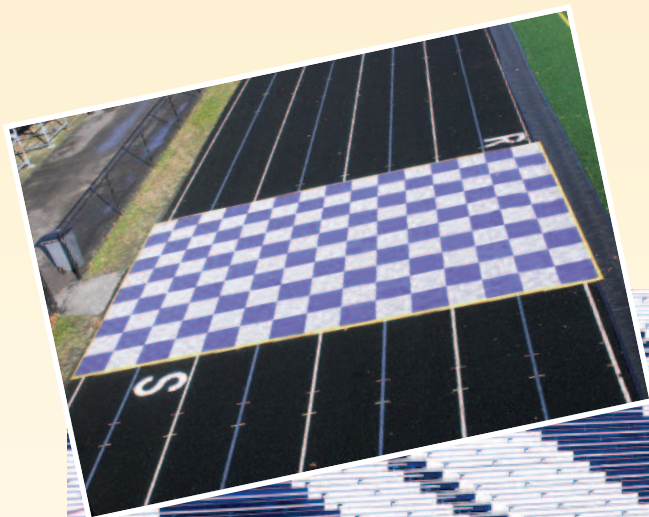

"I am using my Turtle Plastics tiles as a track protector. As teams enter and leave our stadium field, they walk over the tiles to protect our track. The previous material I used as a track protector was a light plastic that blew over and apart every time we got a large gust of wind. The Turtle Plastics tiles are heavy enough that they will not blow apart in the wind. I also like how I was able to create a design with my tiles."

—Phil Kuemmel, Cottage Grove, MN

Track Crossover Mat

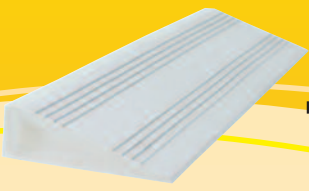

How much do you spend fixing your running track?

Use Turtle Tiles to protect your track during football season. Our 12" square Turtle Tiles can be quickly laid down across your track and allow access to your foot-ball field. Not only will you protect your track with our heavy duty Turtle Tiles, but you can include your team colors for a little added pizzazz. Turtle Tiles are easily put on the track area and are quickly picked up for the next track and field event. Instant drainage and cleat resistance make Turtle Tiles a great addition to your athletic field.

- Made in the USA from 100% recycled plastic
- Protect your valuable track investment
- Cleat resistant
- Heavy industrial grade material
- Available in 15 colors and black
- Easy to install (3' X 3' modules also available)

Helps to prevent trips, slips and falls across transition of field to stadium.

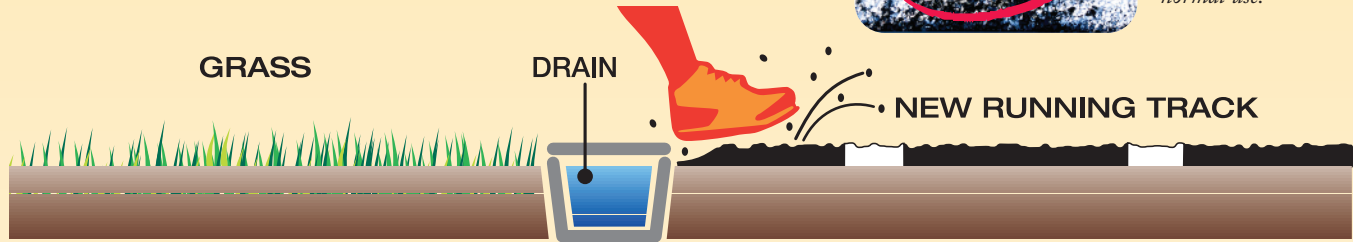

The Edge Protector

The Problem?

If track edges have no protection, cleats and even regular running shoes can destroy the edges as athletes cross the track, driving up maintenance and repair costs.

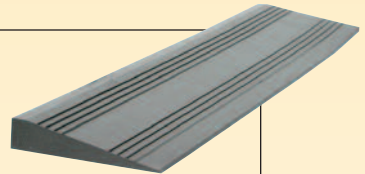

Track edges with no support tend to crumble. Your white edge lines can disappear in one season of normal use.

The Solution!

Drainage mats with ramps wick water away and effectively protect vulnerable edges. **EDGE PROTECTOR**

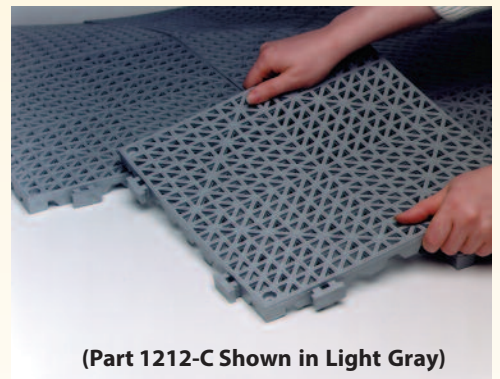

Edge Protector drawing shown in Red Tile with Dark Gray Ramps. Any color combination can be used.

Super Easy Installation

Turtle Tiles and Edge Protectors are not only easy to install (they simply snap together), they can be stapled, making removal quick and easy.

ALL TURTLE PLASTICS PRODUCTS
MADE IN USA

All Turtle Tile matting products can be pre-assembled by us at the factory based on your custom configuration and specifications.

Turtle Tiles - Athletic Matting Solutions

Dugout Mats

Let's face it—kids spit in the dugouts just like the pro's!—making footing messy and unsanitary. Use Turtle Tiles as spit matting to easily clean dugout areas. Use a pressure wash hose wand to flush dirt through the holes to drain channels.

Shower Mats

There is no better footing for the shower and locker rooms than using our Turtle Tile brand for locker room shower matting. Comfortable, slip-resistant surface is easy to clean. Helps control fungus that causes athlete's foot.

Entrance Matting

There is no better sure footing for the entrances to busy school and administration buildings than our entrance matting brands. Slip-resistant surface uses carpet inlays in between draining design of pvc tiles.

- MODULAR MATTING TO FIT ANY SIZE AREA
- EASY TO INSTALL, EASY TO REPLACE
- BRUSHES SHOES CLEAN OF SAND, DIRT, SLUSH
- OPEN GRID DRAINS AWAY WATER AND DEBRIS
- CHOOSE CUSTOM COLOR COMBINATIONS
- NO METAL RATTLE-FREE, ALL PVC MATERIAL
- USE IN RECESSED AREAS OR DIRECTLY ON THE SURFACE
- TWO PROFILES 1/2 AND 1/4 INCH
- BEVELED EDGE RAMPS AVAILABLE
