Interlocking Products**
(see our website for other sizes)

HYBRID CRIB

Mfg. Part # 44PL-18

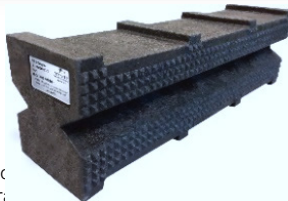

- Dimensions: 4"x4"x18"
- A versatile light duty recycled plastic cribbing block designed with two working faces, either pyramid sides or "lincoln log" for rapid stacking of smaller to mid-sized surface areas such as cars and small equipment.
- Made from recycled plastic
- Built in yellow lanyard
- Working Load: 20,500kg/45,194lbs

SUPER CRIB

Mfg. Part # 67SC-24

- Dimensions: 6"x7"x24"
- Features interlocking pyramic design on all four sides. Extr. length makes this the ideal crib for creating a solid base for a crib stack
- Made from recycled plastic
- Built in blue lanyard
- Working Load: 49,900kg/110,000lbs

MOD PAD

Mfg. Part # CTP2424-2W/L or
Mfg. Part # CTP1818-1W/L

- Multi-use interlocking stabilizing plate for top and bottom when using Super Crib or smaller Hybrid Crib stack
- Use under an air lifting bag to protect and stabilize
- Use as bottom or top plate of crib stack to distribute load
- Built-in level and yellow lanyard
- Two sizes: 24" x 24" x 2"/18" x 18" x 1.5"
- Made from recycled plastic
- U.S. Pat. No. D804,768
- PSI: 369/402

SUPER HOSE BRIDGE

Mfg. Part # HBS68

- Creates a temporary safe passage for driving over hoses
- Protects valuable larger hoses
- Openings: accepts 6", 8" and 10" O.D.
- Wide ramps for easy access
- Supports up to 14,000 lbs. per axle.
- Easy to assemble
- Patented design (U.S. Pat. No. D552,217)
- Available in smaller Standard Hose Bridge #HBS

Kits

AUTO X KIT B

Mfg. Part #: Auto X Tool Kit B

ENGINEERED PLASTIC

The Safer and Cleaner Alternative to Wood.

There are so many reasons to use engineered recycled plastic Dura Crib brand products for rescue and even industrial equipment stabilization.

Why put dirty wood back onto the apparatus?

Turtle Plastics engineered Dura Crib brand of recycled plastic products are ergonomically designed, washable, load rated and odor free. Year over year a reliable performance of the products makes them economical over replacing wood.

LOCK BLOCKS

Mfg. Part # 1B, 2B or 3B

- Dimensions: 9"x9"x1", 2", 3"
- Create a platform for various small height requirements under a vehicle or use with a step chock for additional lift
- Features unique square peg interlocking design
- Can be used as a landing pad for cutting tools
- Made from recycled plastic
- Working Load: 31,000kg/68,343lbs

YELLOW SPRINKLER WEDGE

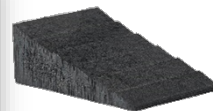

Mfg. Part # WIT-Y

PYRAMID FACE WEDGE Mfg. Part #
4/4-PDU or 6/7-PDU24

STANDARD WEDGE-SMOOTH PROFILE
Mfg. Part # 2/4-12, 4/4-20 or 6/7-24

STEPPED WEDGE
Mfg. Part # 3W, 6W,
12W or 24W

Chocks -The Versatile Staple for Rapid Stabilization

The fastest way to stabilize and to ensure stability. Work faster against the golden hour.

STEP CHOCK - SMALL

Mfg. Part # SC-1

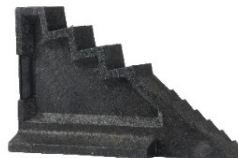

- Dimensions: Base - 241/2"x53/4", W-33/4"x H-103/4"
- Built in yellow lanyard
- Working Load: 2,600kg/5,732lbs

STEP CHOCK - MEDIUM

Mfg. Part # SC-2

- Dimensions: Base - 291/2"x9", W- 41/2" x H- 71/4"
- Built in yellow lanyard
- Working Load: 4,400kg/9,700lbs

COG STEPCHOCK

Mfg. Part # COG KIT A

- Wedge and incline lock together for maximum stability
- Flip and it's a standard step chock — quick set up and leveling
- Compatible with Turtle Lock Block to increase base lift
- Working Load:
Chock 1,701kg/ With Cog 2,722kg
Chock 3,750lbs/ With Cog 6,000lbs
