

TURTLE PLASTICS®

Safety & Stabilization Product Solutions

OSHA Compliant

Load Rated · Ergonomic · Reliable

Sustainable · Made in the USA · Washable · Warrantied

About

For over 40 years, Turtle Plastics® has been manufacturing (S)Safety, (H)Health and (E) Environmental products made in the USA from 100% recycled plastic. Trusted by SHE leaders in many industries to help keep their workforce safe, especially when stabilization of machinery or equipment is required during lifting operations. Turtle Plastics® Dura Crib® load-rated brand products, when used correctly can provide a stable platform to assist in compliance of “lock out/tag out” of stored energy created by pneumatic tools or hoisting equipment.

Turtle Plastics® Turtle Tile® products help to reduce slips, trips and falls when used as flooring. Turtle Plastics® is the only manufacturer of the Dura Crib®, Dura Stat®, Dura Blend Lumber, and Turtle Tile® products. All of our products are created with a reliable and repeatable formula, so each product performs in a superior manner, year over year. Please visit our website for more great products. We welcome your call to see how we, or one of our great authorized distribution partners can help you find workforce safety solutions.
